Multi-Million Dollar Expansion Program

New Construction Will Seat 1,980 Students Per Hour

"Two thousand students by 1960 and plenty of room to seat them"—that's the goal and purpose behind the new expansion program being undertaken by the college. Plenty of room for still more students and an even larger enrollment will become a reality with the completion of the building program.

These new buildings will fulfill a vast need in providing more of the much needed on-campus housing and ample space for physical education and class rooms. The new class room building will be able to seat 1,980 students per

Appropriations

STATE—	
Health and Physical Education	\$ 500,000
Classroom	1,150,000
Repairs and Remodeling	380,000
Dormitories (one-third)	135,000
FEDERAL—	
For two dormitories	850,000

hour without any assistance from the administration building. The new structure will be an ell-shaped building 66 feet wide with the short leg of the ell at right angles to the long walk and the long leg of the ell parallel to the long walk, the short leg to be 210 feet and the long leg, 245 feet.

The ground floor will have the offices of the education department, storage space, locker space and a lounge. There also will be one classroom for 90 students, three for 60 students each and two for 30 students each.

The first floor will house the business, humanities, and foreign language departments, with one classroom for 150 students, two for 90 each, six for 60 each and four for 30 each.

On the second floor will be the offices for the English and social science departments, a seminar room, one large classroom for 150 students, two for 90 each, five for 60 and seven for 30 each.

The building itself will be constructed of brick to match the other buildings of the campus.

The administration building will be remodelled to house the sciences, agriculture, home economics, speech, art and music, in addition to the administrative offices.

Delegates Attend Party Convention

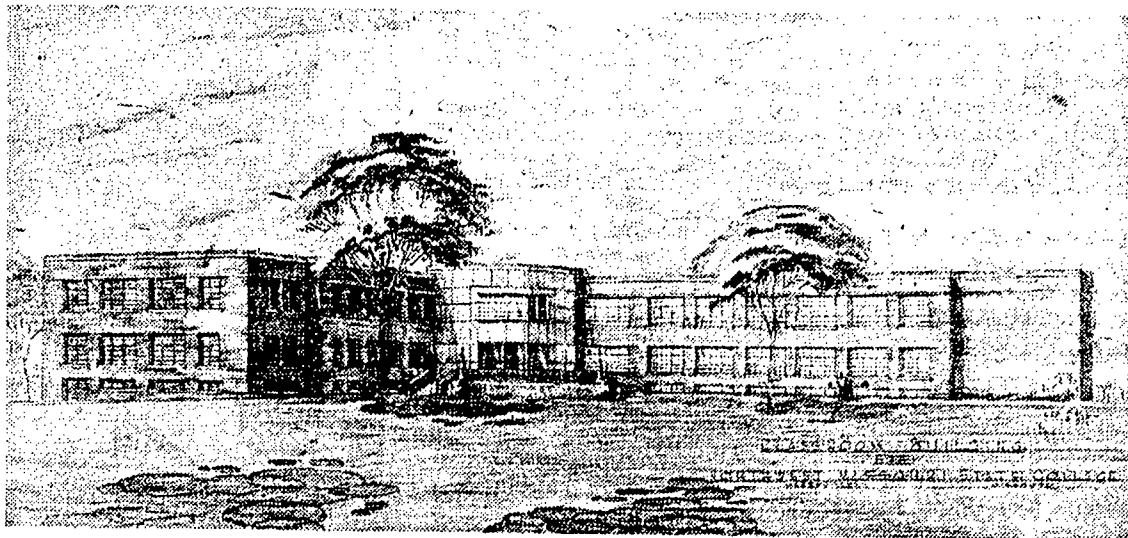

Delegates to attend the forthcoming State Young Democratic Convention, at Jefferson City, have been selected by the campus Young Democrats.

The state convention will have a keynote address, June 28, the opening day, by the Hon. Harry S. Truman. All convention activities will be held at the Hotel Governor. Missouri's Senator Symington will be the principal speaker at the banquet to be held June 29.

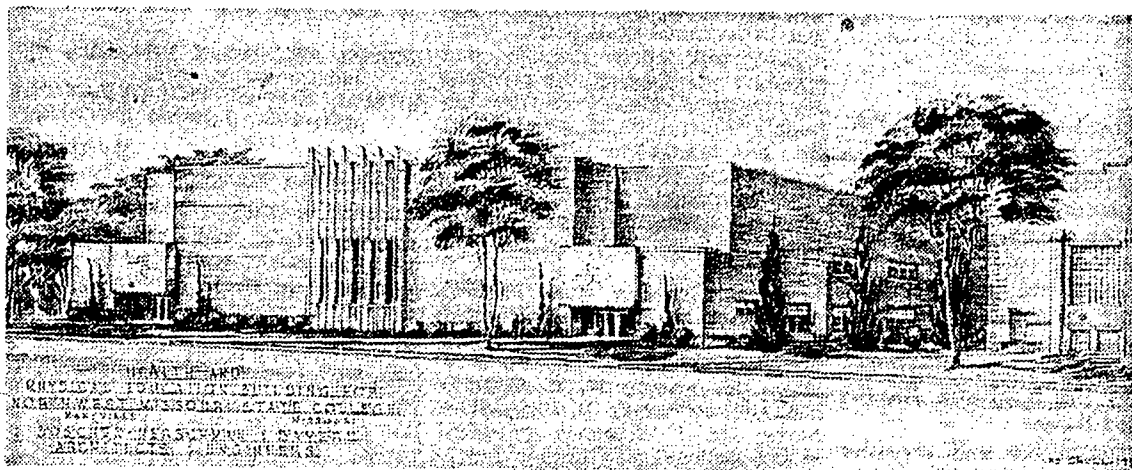

The local club selected officers and delegates at its last meeting. Those include James Taylor, president and delegate; Eldon Cumpston, Jr., secretary; Larry Brown and Stanley Rice, delegates.

The vice-presidents and a treasurer will be elected by the local club in the fall.

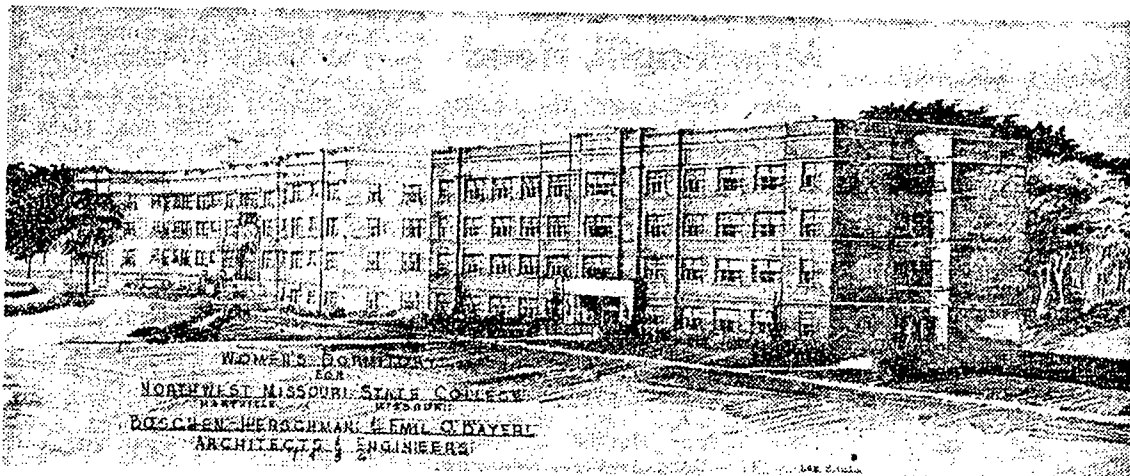

Two of the delegates, Stanley Rice and Larry Brown, plan to leave Thursday morning in order to attend the Cardinal-Philadelphia game prior to the convention.

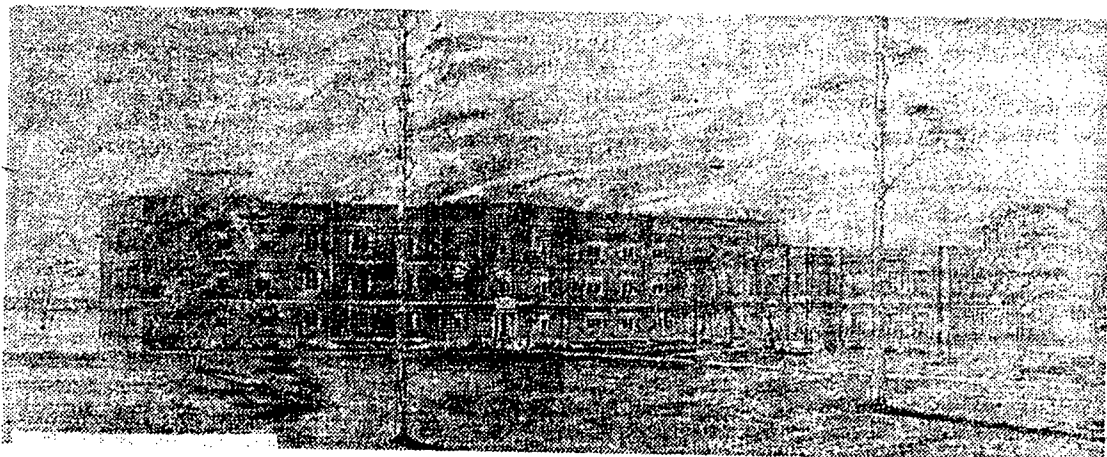

NEW ELL-SHAPED CLASSROOM BUILDING... will provide plenty of room for large enrollments and give more space to the various departments.

TO BE CONSTRUCTED FIRST... is the new \$500,000 physical education building west of the gymnasium.

CONSTRUCTION MAY BEGIN AUGUST... on the new dormitory for women to be built on the campus as is shown above in the architect's drawing of the building.

NEW DORMITORY FOR MEN... will provide room for an additional 136 male students. Construction for the building may begin in August.

Investment to Be For Future Needs On State Campus

More than \$3,000,000 is being invested in the future of Northwest Missouri State College through the large expansion program now being undertaken. Three of the four buildings to be constructed are the Health and Physical Education building, the new unit for Residence Hall, and a construction for the men.

The new health and physical education building is to stand just west of the present gymnasium, and will have 48,000 square feet of floor space—more than twice the size of existing facilities. Although it has been designed primarily as

Bids to Be Received

The Board of Regents of Northwest Missouri State College announced after their meeting last week that bids on the construction of the two new dormitories, one for men and one for women, will be received at the College business office, July 9.

a classroom building to be used by the department of health and physical education, it will provide much more room for intercollegiate games than the present gymnasium provides.

The main room will be about 120 by 215 feet, with a basketball court in the center, which is to be surrounded by a rubberized asphalt floor for general use. Seating capacity of the bleachers will be increased from 1,300 to 2,400, with some space for additional seating if and when needed. A tunnel will connect the new structure with the present gymnasium for use of the pool.

The second building scheduled for the campus is another unit for housing co-eds, which will be located just south of Residence Hall. It is anticipated that this addition will provide quarters for 190, bringing the number of women to be housed on campus to about 420.

Plans call for a third building, a new construction in the area of the Quads, which will provide housing for about 136 more men.

The two dormitories are financed by a \$850,000 loan obtained from the federal government, supplemented by \$135,000 from the State's sale of \$75,000,000 in revenue bonds and \$15,000 from local funds.

College Sponsors Kansas City Trip

Plans have been arranged for a trip to the Starlight Theatre and baseball game, by bus, in Kansas City, July 19.

The Starlight is featuring "Can-Can," starring Hildegarde, and the ball game is the Athletics vs. Baltimore.

Reservations should be made by Wednesday, July 3, in the Business Office.

Tickets for the Starlight are \$1.50 for reserved seats and \$2.00 for the bus fare, while admission to the ball game is \$1.85 for reserved seats and bus fare \$2.00.

The bus will leave the college at 4 p. m., Friday, July 19. There must be at least 25 for the trip to be made. Unless 25 people sign up for this trip, all arrangements will be cancelled. Students will eat dinner in Kansas City.

Miss Bonnie Magill, acting chairman of the women's education department, is in charge of the arrangements for this proposed trip.

New Look in Dorm Roses Are Planted Two New Ph. D.'s

Residence Hall is taking on a new look as redecorating of the lounge progresses. A new wall-to-wall carpet is being laid, new draperies are being made, light fixtures have been installed, and some new furniture has been received. The halls are being painted, and some new furniture and light fixtures have been received for the recreation room.

Ten different varieties of roses numbering some 200 plants have been installed in the space between the two traffic lanes in front of the administration building.

The plants are a permanent planting and it is hoped that they will be in bloom this fall when the students return. The plants are also of a color variety featuring white, yellow, pink, orange-red, and deep red.

Two members of the faculty received their Ph. D. degrees from Northwestern University, Monday, June 17.

Ralph E. Fulsom, chairman of the speech department, received in absentia his doctorate in speech. John E. Smay, acting chairman of the music department, attended the commencement exercises at which he was granted the Ph. D. degree in music education.

Lucky You! . . .

You are a lucky person! Why? Because Northwest Missouri State College provides wholesome recreational opportunities for you.

The J. W. Jones Union building is for your enjoyment. Recreational facilities available include hi-fi music, a television set, and magazines and newspapers on the second floor; ping pong, billiards, the snack bar, card-playing facilities, and juke-box music in the Bearcat Den.

The Union's selection of hi-fi records is excellent. Many new records are added periodically through the Columbia Record Club and the R. C. A. Victor Record Club. One can select music by Bach, Beethoven, Dvorak, Toscanini, Schubert, Tchaikowsky, and other classical composers.

There are music albums of Glenn Miller, Cole Porter, George Gershwin, and others available. Also included in the selection is music for relaxation, music for quiet dancing, dinner music, music to work or study by, music for a summer night, and college jazz. Two other types of music include the world's best loved waltzes and sacred music. Any of these records may be checked out from the Union office on second floor.

Director of Student Activities this summer is Miss Jo Ellen Wilson, a 1953 graduate of this College. She has been Residence Hall director at Iowa State Teachers College. Last year she studied for her master's degree at the University of Missouri. While there she was personnel assistant at Upper Class Residence Hall for Women.

Assisting her is a special committee, the Union Board, which devotes its time to finding ways for students to use the Union. This Board is a representative of the Social Committee and the Student Senate. During the school year it sponsors projects such as coffee hours, photo contests, and bridge instruction. The Union Board helps both groups and individuals in realizing a well-adjusted campus life.

See you in the Union!

Board of Regents Approves Faculty; Sets Date for Bids

The Board of Regents of Northwest State College last week announced that bids on construction of two new dormitories, one for men and one for women, will be received at the College business office July 9.

Bids for repairs and remodeling of the present heating and plumbing systems will be made, but at another date.

Contracts will be let July 29 when members of the board return from vacation.

The Regents also last week approved the appointments of Donald E. Peel, English, M. A.; Nellie O. Dye, librarian; L. B. Blatt, M. A., English and speech; and Miss Jo Ellen Wilson, director of student activities for the summer session.

The board accepted the resignation of Mrs. Ruth Burke, College dietitian. Mrs. Burke will accept a job at St. Paul, Minn.

Peel received his master's of arts degree from the University of Denver. He has taught English in high school for three years, and literature and composition at the Lincoln Bible Institute, Lincoln, Ill., for two years.

Nellie Dye has been librarian of Northeast Junior College, Sterling, Colo., for the past two years. She will replace Miss Barbara Palling, who is on leave of absence.

Blatt will teach English and speech at the College. He received his master of arts degree from Columbia University at New York. He has taught in Illinois public schools and at Butler University.

He has taught English at the Thomas Jefferson high school in Council Bluffs, Ia., for the past four years.

Those attending the Regents meeting were M. E. Ford, president, Maryville; Harold Hull, vice-president, Maryville; H. N. Stevenson, St. Joseph; W. M. C. Dawson, Grant City; A. B. Vogt, St. Berry; Dr. J. W. Jones, president of the College; and Luther Belcher, secretary of the board.

Professors Elect Miss Magill, Head

Miss Bonnie Magill, acting chairman of the women's physical education department, was recently elected president of the local chapter of The American Association of University Professors.

Other officers elected for two years are Dr. George Gayler, vice-president; Dr. Dale Blackwell, secretary; and Mr. Myrl Long, treasurer.

Retiring officers are Mr. William T. Garrett, president; Miss Olive DeLuce, vice-president; Miss Violette Hunter, secretary; and Mr. Elwyn DeVore, treasurer.

Movies on Deck

June 26 . . . **THAT MIDNIGHT KISS** Kathryn Grayson, Ethel Barrymore, Mario Lanza.

When a wealthy patron of music and founder of the New Symphony decides to launch the operatic career of her granddaughter, she prevails upon an old friend. When the granddaughter finds she can't bring herself to make love to the male lead on the stage, a truck driver becomes an operatic sensation.

July 10 . . . **STARS IN MY CROWN** Joel McCrea, Ellen Drew

A young man, tried in the fires of the Civil War, comes to a small town to preach in the barns, parlors, and in the great outdoors. He marries a local girl and adopts an orphan. A heart-warming story well recommended for all.

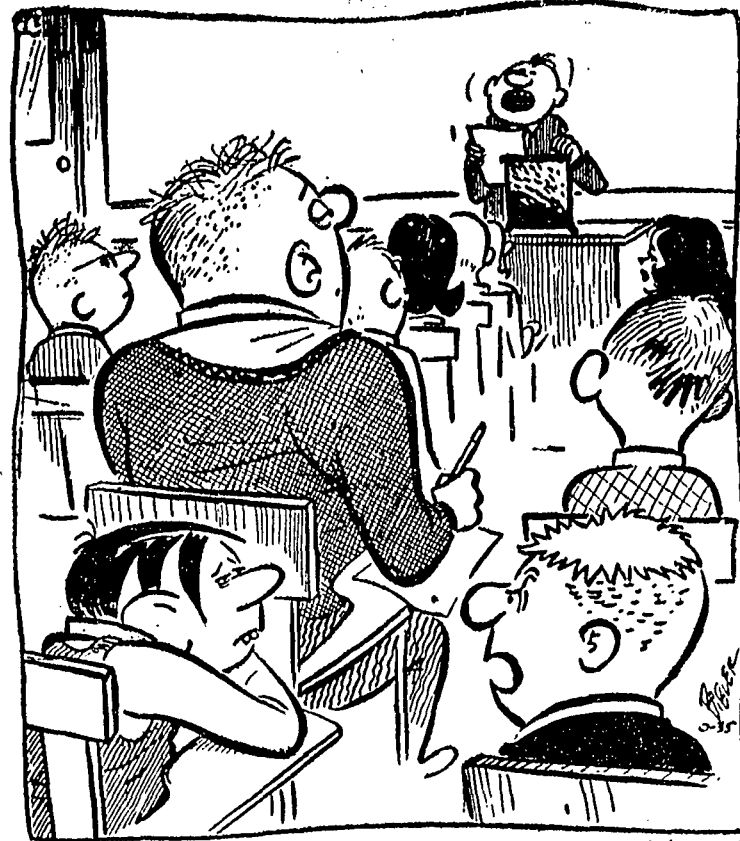

Proficiency Exam

The English Proficiency Examination will be given Thursday, July 11, at 1:40 p. m. in the College auditorium. All students eligible to complete this examination will be contacted and instructors should make arrangements for the students to be present for the examination.

LITTLE MAN ON CAMPUS

by Dick Bible

Views of Grassland Ecology

NORTH AMERICAN PRAIRIE, By J. E. Weaver. Johnsen Publishing Company, 1954.

GRASSLANDS OF THE GREAT PLAINS, By J. E. Weaver and F. W. Albertson. Johnsen Publishing Company, 1956.

By Irene Mueller

Companion books of great significance to professional botanists, agriculturalists, and conservationists who work and live in the grasslands of North America, as well as to nonprofessional people with interests and hobbies that center about natural history, are **NORTH AMERICAN PRAIRIE** by Dr. J. E. Weaver, Professor Emeritus of Plant Ecology at the University of Nebraska, and **GRASSLANDS OF THE GREAT PLAINS** by Dr. Weaver and Dr. F. W. Albertson, Chairman of Biological Sciences at Fort Hays Kansas State College. Each author has spent his lifetime studying grassland ecology.

The **NORTH AMERICAN PRAIRIE** deals with the plant community of taller grasses which extends from the deciduous forests on the east, westward far into Manitoba, the Dakotas, Nebraska, Kansas, Oklahoma, and Texas. It tells the story of the variety of the

inhabitants, their internal struggles for domination and their battles with drought and overgrazing.

Two chapters of this describe a part of the prairie seldom seen—the extensive and intricate systems of roots and rhizomes.

The grasslands of the great plains lie between the prairies to the east and the Rocky Mountains to the west. Here drought is more severe, temperatures more extreme and the struggle for survival more critical.

The story of the changes in these grasslands brought about by the "great drought" and their recovery with the return of rains is told in detail. The book points the way to efficient utilization of grasses and to the restoration of the grasslands from the dustbowl which was created by overgrazing and misuse of the plow.

Dr. Irene Mueller, a member of the College faculty, teaches in the biology department.

Campus Briefs . . .

Graduate students are invited to a coffee hour today at 9:40 in the Union lounge. Dr. Leon Miller, chairman of the education division, will discuss the graduate program. An informal question and answer session will be held.

The annual Book Exhibit was held at the College, Monday and Tuesday, June 24 and 25. There was a large display of text books and other interesting materials.

Mr. R. P. Foster, registrar, and Mr. Everett W. Brown, director of Field Service, left Saturday to attend the Washington Conference on Personnel Policies for Schools of the Future, sponsored by the National Commission on Teacher Education and Professional Standards, National Education Association of the United States. Mr. Foster is the representative of the College, and Mr. Brown represents the Northwest Missouri District Teachers Association.

Their families accompanied them.

N. J. Meredith, an alumnus, has recently been appointed supervisor of education and training in the Industrial Relations department of Westinghouse Electric in Kansas City.

Maureen Sullivan, sister of Ann Sullivan, College home economics instructor, is here visiting from New York City. She will attend Columbia University this fall to

start working on her master's degree in English.

The annual convention of the American Home Economics Association is being held June 24-28 at Kiel auditorium in Saint Louis. Miss Mabel Cook, chairman of the home economics department, is attending the convention.

Miss Ruth Meabon is the supervising teacher of commerce at Horace Mann Laboratory School. She replaces Mrs. Frederick Schneider. Miss Meabon received a master of education degree from Washington College of Education. She has recently been at Evangelical College in Springfield.

"On the problems encountered thus far" will be the topic for discussion at the second seminar of the summer session. All student teachers are required to attend this seminar. The meeting will be held in the Horace Mann auditorium at 4:00 p. m., Thursday, June 27.

W. P. Green, class of 1932, was on the campus visiting friends. Mr. Green is director of vocational education and adult education in St. Joseph and has charge of the night school program. With the exception of three and one-half years spent in the Navy during World War II, he has been in the St. Joseph educational system since 1932.

Right to Vote . . .

No student government on any campus would dare to withhold the right to vote to a group of students. Failure to make provisions for graduate students, however, has disfranchised them on this campus. When the "outdated" present constitution was written, there were no graduate students or master degrees offered; so of course, no provision was made for them.

Since then, time and Northwest Missouri State have marched on, but the student constitution has failed to keep up with the progress. The remedy is a simple one—merely provide the graduate students with one or two positions in the Senate. However, time and experience have shown that in the long run it's far better to revise constitutions than to amend them.

Perhaps the constitutional revision committee will consider giving the "Right to Vote" to graduate students.

Rules to Live By . . .

Satchel Paige, the ageless baseball pitcher, has made up six rules to live by. We think you will find them of interest. Here they are:

1. Avoid fried meats which angry up the blood.
2. If your stomach disputes you, lie down and pacify it with cool thoughts.
3. Keep your juices flowing by jangling around gently as you move.
4. Go very light on the vices, such as carrying-on in society; the social ramble ain't restful.
5. Avoid running at all times.
6. Don't never look back; something may be gaining on you.

—Contributed

Den for Instructors, Too . . .

Is the Union for students only? The answer is "No!" All instructors are welcome to venture into the building at any time. They need not feel out of place for the students are, in most cases, their friends.

It seems that the instructors feel unwanted in the Den. They aren't "stuffed shirts"; so this seems to be the only other explanation.

"We will never bring disgrace to this, our College, by any act of cowardice or dishonesty. We will fight for the ideals and sacred things of the College. We will revere and obey the College laws and do our best to incite a like respect and reverence in others. We will transmit this College to those who come after us, greater, better, and more beautiful than it was transmitted to us."

ss Mueller's Class Goes Field to Learn of Nature

Members of Miss Irene Mueller's class, the Taxonomy of Flowering Plants, are identifying the different flowers and flower parts on one of their field trips, taken on the Northwest Missouri campus. They are, left to right, Allen Carr, Dr. Irene Mueller, Paul Owen McIntyre, and Robert Myrtue. Members of the class present when the picture was taken are James Dunlap, Richard H. and Arnold Warner.

Ability to apply classroom knowledge in the field is not to be lacking in Miss Irene Mueller's the Taxonomy of Flowering Plants class as they go to the field to learn about nature. Basic purposes of the course are to learn about classifications of flowering plants and to be able to identify and name the local flora. This vein of learning the student will make a collection of the plants studied.

Successful study of the course requires the use of a varied collection of "equipment." Students find it necessary to have available a trowel, a digger, a knife for cutting, a magnifying glass for identification, and a camera in order to identify and photograph the different flower

ing course, a three-hour advanced science course, is offered to an undergraduate course. Every many of the summer students are post-graduates returning for additional study in science, or students seeking to establish an advanced major or minor. General biology is a prerequisite for the course which is taken primarily by agriculture and science majors and a few A.B. or B.S. degree candidates.

Most of the laboratory time in summer is spent in the field in order that the students may have first hand the local plants and study. The flora studied includes prairie which is the loess type with some additional in- into the timber type.

Tentative Calendar For 1957-58 Term Tells of Activities

Plans for the 1957-58 school year have been released in a tentative calendar.

Faculty members will meet Sept. 3. Freshmen orientation will be held Sept. 4-7. Traditional dates scheduled include faculty reception for freshmen, Sept. 5; faculty reception for upperclassmen, Sept. 7; Homecoming, Nov. 2; All Greek dance, March 8; Name Band Dance, March 28; Kappa Delta Pi Charter Night Dinner, April 24; and Kappa Omicron Phi Senior Banquet, April 30. Commencement will be May 23.

A four-day Thanksgiving vacation, a sixteen-day Christmas vacation, and a three-day Easter vacation are being planned. First semester final exams are Jan. 13-17. Second semester finals are May 17-23.

Freshman registration for first semester is Sept. 6. Upperclassmen registration is Sept. 7. Registration for second semester is Jan. 27.

Dance to Be Held On Tennis Courts

Mixers, squares, couple dances, and Western square dancing will be featured at the square dance to be held tomorrow evening from 7:30 to 9:30 on the tennis courts.

This dance has been planned by the Social Committee of which Miss Bonnie Magill is chairman. Other members are Everett W. Brown, Ryland H. Milner, Lon E. Wilson, Charles E. Koerble, R. P. Foster, Mrs. Elizabeth J. Luer, and Miss Mabel Cook.

Miss Kathryn Riddle is in charge of calling and directing the dances. Assisting her will be Donna Thompson, Pat Glenn, and Pat Maher. Pop will be served.

"For a long time I have noticed with regret the almost entire neglect of the art of original composition in our common schools with no well-defined ideas of the construction of our language." These words which sound so familiar to us today were spoken by a county superintendent on July 27, 1844.

In the Preface to FIRST LESSONS IN ENGLISH COMPOSITION, a composition text published in 1858, author G. P. Quackenbos says that multitudes graduate utterly destitute of all practical acquaintance with grammar.

In comparing Quackenbos' text published in 1858 and THE OXYGEN HANDBOOK AND GUIDE TO WRITING by George B. Woods and W. Arthur Turner, published in 1954 and used in this college, one realizes what pleasant changes have been made.

Quackenbos says, "A sentence is such an assemblage of words as makes complete sense." Woods and Turner say, "The sentence is the unit of expression. It may consist of few parts or many; but these parts must be so fitted together as to form a single organic whole which clearly expresses a complete meaning." Which do you prefer?

Surely with more adequate composition texts and more thoroughly trained English teachers, the situation has improved these

past 100 years. Let us hope that in the year 2057 our nation's education leaders can say, "For a long time we have noticed with great satisfaction the extreme interest in the art of original composition in our common schools with clearly defined ideas and a remarkable understanding of the construction of our language."

Miss Dykes Holds Writers' Meeting

Writers' Club, sponsored by Miss Mattie M. Dykes, of the English department, met last night at her apartment, 724 West Second Street, at 7:30 p. m.

Membership in the club is open to graduates and undergraduate students and to people of Maryville and the surrounding territory. No dues are collected. A love of writing and a desire to meet others interested in writing are the only requirements for membership.

Those who attend bring something that they have written. Manuscripts are not signed with the writer's name. They are read aloud, and frank criticism is given by the members and Miss Dykes. After all the manuscripts have been read and criticized, the authors are free to disclose what they have written.

PING-PONG IS ONE of the several games that people enjoy in the Bears' Den. Here Larry Ramsey and Mr. George Benz play a friendly game. Spectators also like this recreational activity as demonstrated here by Dorothy Barius and Helen Kennedy.

Two Athletes Set New World Marks

At the A. A. U. track meet at Austin, Texas, on June 16, Bob Gutowski and Greg Bell astounded the world as they approached the impossibles in their field.

Bob Gutowski, a student at Occidental College, pole vaulted the fabulous height of 15 feet and 9 3/4 inches to better the world mark formerly held by Cornelius Warmerdam by some 2 1/2 inches. This record has been standing since 1945. After Gutowski's vault, he tried for the magic 16 feet. He cleared the bar each time but in turn brushed it going down.

Another performance of great magnitude was made by Greg Bell of Indiana. He broad jumped an astonishing distance of 26 feet and 7 inches. This was only 1 1/2 inches less than the world record.

Bobby Morrow equaled the world record in the 100 yard dash at .09.4. Elsewhere in the world Derek Ibboston ran the mile in 3 minutes 59.4 seconds. That makes the twelfth 4-minute-mile in the history of man.

Bulletin

For the present summer session, Bermuda shorts may be worn on the campus, except at the evening meal.

This recommendation of the Student and Faculty Affairs committee does not affect other existing regulations concerning dress.

Trampolining tonight at 4:30.

Thompson's Men's Wear

West Side of the Square

Three Men Enter Athletic Tourney

Bob Alcorn, Warren Landes, and Barney Parker are unofficially representing the College in the St. Joseph Tennis Tournament. Bob Alcorn entered in the singles and Warren and Barney entered in doubles.

Bob Alcorn met Frank Shaag in the first round of the singles tournament and won with a 6-1, 6-0 score. He then defeated Paul Clark with a score of 6-3, 6-3. Bill Wickersham, who later went on to win the singles, defeated Alcorn with a score of 1-6, 1-6. Wickersham is one of the best tennis men in the mid-west.

In the doubles play, Barney Parker and Warren Landes played the first round with Frank and Bob Shaag, a father-son team. The College boys had a hard time, but they won with a score of 6-4, 1-6, and 6-0.

In the second round they met the team seeded 1st in the tourney, Wickersham and Clark.

Bob Alcorn's partner, a junior in high school, is one of the most promising young tennis men in the state. He is 16-year-old Melvin Karrie. Bob and Melvin won by default 6-2, 6-2.

Trampolining tonight at 4:30.

Gallant Man Sets New World Record

Were you watching television on Saturday, June 15? If so, you were probably thrilled at the performance of Gallant Man in the Belmont Stakes. This is a race patterned after the Epson Derby of merry old England.

This race was important in the world of horse racing because Gallant Man set a new world record in the mile and a half distance.

Gallant Man was held back of the pacers until the last turn at which time the jockey, Willy Shoemaker, gave him his head and pulled from 4th place to win by eight lengths with a record breaking time of 2 minutes, 26 3/5 seconds.

In the horse racing world, this was a milestone of speed and ability. It seems sure that people will see much more of Gallant Man in the future. He is truly a great horse.

Gnip Gnop Today?

For the Den-ologists there are some fine facilities that are gathering dust and becoming oxidized. One of these is Ping Pong or Gnip Gnop spelled backwards.

The game of Ping Pong was at its height of glory just a short time ago (1943), and it is still a great sport. It is a game one can play at a moment's notice. It is played without any great expense to the player.

If and when this fine game is revived on the campus, it may be found that students have been missing a lot of fun.

It also appears that there are pool tables "going to seed" as well as many tables put in the Den especially for bridge. There are also facilities for shuffle board players.

It is fun to mingle with one's friends in the casual atmosphere which may be found in the Den.

LITTLE KNOWN FACTS ABOUT WELL KNOWN PLACES . . .
Co-recreational swimming is open to any student who wishes to go for a dip. The pool is open every Tuesday and Thursday afternoon from 4 to 5:30. The tennis courts are now suitable for a game or so any afternoon. Some of the more energetic students have found tennis a very enjoyable sport. If you are one who would like to go out and play a round or two of golf you may obtain a permit to play at the Maryville Country Club, and it doesn't cost a thing.

IT MIGHT INTEREST SOME . . . to know that there is a fine TV set and a Hi-Fi set in the upper rooms of the Union.

CONGRATULATIONS . . . are in order to Dr. H. D. Peterson for a very successful health workshop. Interested professional-minded persons in attendance numbered 183. Dr. Peterson was the chairman of this workshop.

FLASH! Dr. Peterson informs us that at present there are several "Hot Prospects" for next fall's football team. They may be sitting next to you in some class. Also Mr. Gregory tells of some of the same for the basketball team.

A Young Foursome . . .

Roy Mayes glanced suddenly at the floor near his desk last Friday and found two young quails eyeing him. Having hunted quail all his life, Mr. Mayes immediately recognized these young visitors and judged them to be about two weeks old.

Further search revealed two more young ones hiding under the lockers on first floor. Evidently the baby birds had entered the Administration building through the open door near Mr. Mayes' office.
